## LOCAL ITEMS

L. A. Turcote, of Heathdale district, left on Saturday for South Porcupine, Ontario.

See us for Tennis Balls and Tennis Rackets—E. E. Jacques, Druggist.

Rain and more rain! It is many years since this district has experienced such a wet spring. A rain commencing on Friday evening kept up a steady fall lasting until Saturday evening. As a result of the storm, seeding has been delayed for a few days. However, a few farmers around Chinook were able to work on the land on Tuesday.

Percy Dobson, of Rockyford, was a visitor in town over the week-end.

Coming to Chinook School next Thursday evening, May 19 the picture entitled "Everybody's Acting."

Mr. and Mrs. A. H. Clipsham were visitors this week at the home of their son-in-law and daughter, Mr. and Mrs. H. E. Robinson, of Rearville.

Miss Melva Richardson, of Calgary, arrived in Chinook on Friday morning to visit her sister, Mrs. Fred Lajoie.

The fifth annual Langford U. F. A. Sports Day will be held at Acadia Hall on Friday, June 3. See posters for programme of events.

Mrs. O. B. Elliott left on Tuesday for Davidson, Sask., where she will visit friends.

The Chinook Senior C. G. I. T. held an initiation ceremony last Thursday evening at the home of Mrs. Wm Milligan. Thirteen members were enrolled. After the ceremony a social hour was spent.

J. H. Fergusson, Postoffice Inspector, was in Chinook yesterday inspecting the local office.

### Death of Mrs. J. C. Cottrell of Cereal

We regret to announce the death of Mrs. J. C. Cottrell, of Cereal, who passed away on Tuesday evening at the Calgary Hospital, following an operation. Deceased was very well and favorably known in this district, and the news of her death came as a great shock to her many friends. The funeral will be held in Cereal on Saturday afternoon May 14th, at 2 o'clock. Rev. George Dickson, of Calgary, will conduct the service in the Cereal United Church.

### NOTICE

#### Village of Chinook

Attention is hereby called to By-Law No. 5 Village of Chinook, restraining Domestic animals from running at large within the confines of the village.

This By-Law will be strictly enforced.

By Order  
Village Council

## Large Crowd Attend Mother's Day Service

The appreciation of the mothers was evidenced last Sunday evening at the Chinook United Church, when a large attendance of people were present at the Mother's Day Service. The service throughout was under the direction of mother and their program of music and addresses were of a nature suited to the occasion. The choir, which was composed of mothers, lead the singing.

Mrs. C. W. Rideout, who took charge of the first part of the service, gave a most interesting address on "The Mothers of the Bible," after which the solo, "Mother O' Mine" was beautifully rendered by Mrs. F. M. Sherman. After prayer by the Rev. A. Gay, an address was given on "The Home" by Mrs. Robert Smith, in which was emphasized the value of Christian home influence. This was followed by a duet, "In the Homeland," by Mrs. M. L. Chapman and Mrs. F. M. Sherman, which was greatly enjoyed by all.

Mrs. W. Todd acted as usher and presented every gentleman with a white bow as they entered the church, while Mrs. B. Dobson took up the collection.

### Cereal Farmer Badly Hurt

John Larvik, a farmer, living three miles northeast of Cereal, was badly hurt last Thursday afternoon, when eight horses, hitched to a drill, ran away with him in the field. Mr. Larvik was thrown forward, and the drill passed over his body, breaking an arm, dislocating his hip, and severely cutting his head. He was taken to the Cereal hospital, where he is being cared for.

### W. K. Wilkins, of Lanfane, Oldest Member of Alberta Wheat Pool

The oldest member of the Alberta Wheat Pool, as far as can be ascertained, is W. K. Wilkins, of Lanfane. He is eighty-one years old and is starting out to seed more than one hundred acres this spring.

The second series of Wheat Pool contracts have been issued. The first man to sign one of these new contracts was J. E. Gustus, who farms 1500 acres in the Calgary district. Mr. Gustus also signed the first contract ever issued by the Alberta Pool and is thus the first man in Canada to sign a Wheat Pool contract.

W. J. Jackman, Wheat Pool director for the Edmonton district, will address a series of meetings along the Canadian National railway in British Columbia. Many wheat farmers there are anxious to join the Pool. The new contract provides for their admission.

The ladies card club met at the home of Mrs. Steckle on Tuesday evening. The prize, which was a lovely guest towel, was won by Mrs. Jacques. The members will meet next Tuesday evening at the home of Mrs. Jacques.

### Blue Sky Laws Badly Needed

With better times now prevailing and business expanding in all directions, work plentiful and wages good, high-pressure salesmen of stock in all manner of companies are again much in evidence. Some of the proceedings, like before people who have a few dollars to invest are sound enough; others are speculative to a degree, with the probabilities that any money invested will be lost, or, at best, will be productive of dividends for years to come. The true glowering prospect held up in the gaze of the innocent investor, the greater the possibility that the investment is a decidedly risky one, in fact, not an investment at all.

Unfortunately, it is an extremely difficult matter for anybody but an expert, or those who make it their business to keep fully informed, to distinguish between the good and the bad of the stock-selling propositions presented to the general public. The only safe course to follow before making investment in any stock is to consult a banker or some reputable financial institution. It is better to be safe than sorry.

It is furthermore unfortunate that the company laws of Canada do not provide adequate protection of the public against these professional promoters of questionable stocks and so-called securities. Canada has reason to be proud of its general order of law, but in this one respect the Dominion of Parliament has been sadly negligent. In fact, it has not provided adequate protection against the people of Canada being victimized by persons and corporations offering questionable stock for sale to an unsuspecting public.

Some provincial governments have endeavored to protect their people, only to have their best efforts largely defeated because of the refusal of the Dominion authorities to supplement these efforts. As a result thousands of Canadians every year are robbed of millions of hard-earned savings.

For example, some years ago the Saskatchewan legislature passed an act prohibiting the sale of stock of any kind within the Province unless the company offering the same first submitted their proposals to the Local Government Board and obtained the approval of that Board and its consent to the stock being offered for public subscription. Certain companies incorporated under Dominion charters challenged the right of the Province to so restrict their stock selling activities, and, upon an appeal to the courts, the Saskatchewan law was declared invalid in so far as companies incorporated at Ottawa are concerned. The situation, therefore, is such that a company holding a provincial charter and whose stock the Saskatchewan Local Government Board has not permitted being offered for sale has only to obtain Dominion incorporation at Ottawa to defy the Saskatchewan Legislature and sell any kind of stock it likes, cheap or bad.

It will be recalled that much the same situation existed when the Province first adopted prohibitory liquor laws. The Provinces could not and did not prohibit the retail sale of liquor, but they were powerless to stop its manufacture within the Province, and equally powerless to prevent it being brought into the Province from other provinces or foreign countries, because this would be to interfere with trade and commerce which come solely within Federal jurisdiction. The Dominion authorities were forced to bow before it, with the result that the law was amended to provide that where a Province adopted prohibition it became unlawful under Dominion law to ship liquor into that Province.

There is need for a similar enactment in relation to Company incorporation. All that is needed is a very simple amendment by the Parliament of Canada to the effect that, where any Province passes an Act prohibiting the sale of stock in any manner, the same law first be approved by the Provincial authority, such law shall be applicable to a company incorporated under Dominion charter in so far as that Province is concerned.

To the average citizen there would appear to be no insurmountable difficulty in the passage of such a simple and reasonable amendment. In fact, the average citizen would imagine that the Dominion Government would be just as anxious as Provincial Governments to protect their people from being victimized by unscrupulous company promoters. The amazing thing is that, notwithstanding pressure from Provincial Governments, representations from reputable business organizations, strong editorial appeals by financial and other papers, the Ottawa Government declines to do anything, but allows a deputy minister at Ottawa to stubbornly block all efforts made to provide ample safeguards to protect Canadian citizens.

Representations have for some months past been made to our Provincial Government regarding the operations of one of these high-pressure stock selling concerns, and protesting against what amounts to legalized robbery, but all the Provincial authorities can do is to admit they are powerless because the Company in question operates under a Dominion charter.

And within recent weeks this very Company has been shown up in reputable financial journals as having secured over \$2,000,000 from Canadian citizens, of which considerably more than \$1,000,000 has been paid in cash, a subsidiary company as "commission" for selling the stock. In fact, the parent manufacturing company has less than one dollar to show for every two dollars invested by the public. Not only so, but the company has never declared a dividend, and for every dollar's worth of goods it has manufactured and sold it has exacted the Company five dollars to make the sale. Yet this Company is still being permitted to sell stock throughout Canada and is doing so in misrepenting people on the strength of very positive or big dividends to come.

It is high time that a certain cabinet minister at Ottawa freed himself from the influence of a reactionary and autocratic deputy head, and drafted legislation to be presented to Parliament at its next session upholding and supporting the Provinces in their efforts to put an end to this stock-selling and legalized robbery, which today is a blot on the fair name of Canada.

Most men would be glad to pay a large income tax for the sake of having that kind of income.

To take a man with a lot of brains to dispose of a gold brick.

### Canadian Offices in London

Offices of Immigration and Trade and Commerce May be Combined

Hon. Robert Forke, Canadian minister of Immigration, and Hon. James Macdonald, minister of trade and commerce, while in England this summer, will jointly consider the feasibility of combining in one building the branch offices in London and the consular offices of their respective departments. It is understood that such a procedure would eliminate duplication of premises and to a certain extent duplication of office staffs.

Mr. Macdonald has already received intimations that the allocation of London, for advertising, Canadian goods in Britain will not go very far in making a widespread appeal. It is understood that one suggestion meeting favor is that when big English stores take a large space for general advertisement, Canada should pay a proportion of the cost for whatever amount of space calls attention specially to Canadian goods.

### Pain In The Muscles, Stiffness In Joints, Quickly Subdued By Nerviline

Those who have tested out numerous remedies will agree that where something is needed to dislodge a deep-seated, more or less chronic condition there is nothing to compare with Nerviline. It is because Nerviline penetrates so deeply, because it has about five times the strength of the ordinary cure preparation, it has come to be known as King over all Pains. For Rheumatic conditions, muscular and joint stiffness, Nerviline works wonders. A trial proves this. Get a 25 cent bottle from your dealer today.

### Canada's Gift to Australia

Maple Trees From Vancouver Island to be Planted at Canberra

Maple trees now growing in the woods of Vancouver Island will form Canada's gift to the Australian people when they open their new national capital at Canberra this month.

Under plans outlined by the Canadian Government, Premier Oliver is arranging for the shipment of a dozen island maples to Australia immediately. The trees will be planted in the grounds of the Canberra Parliament Buildings.

### NO MEDICINE LIKE BABY'S OWN TABLETS

For Either the Newborn Babe or the Growing Child

There is no other medicine so equal to Baby's Own Tablets for little ones—whether it be for the newborn babe or the growing child. The Tablets always do good. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them.

Concerning the Tablets, Mrs. John Armour, R.R. 1, South Monmouth, Ont., says: "We have three fine, healthy children, to whom, when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a solid but harmless laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colic and shreds fever and soothe every day. They are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brooklyn, Ont.

**Breaking New Land**  
The Dominion Government, through the Land Settlement Board, has arranged for the breaking of 21 square sections of land north of Edmonton, the biggest single breaking contract in the history of the province.

Bill "You said I had cut the brains of a flea."  
Mac "No I didn't I said you had."

### HAD BAD SPELLS WITH HER HEART

Mrs. R. G. Hall, Bolton Centre, Que., writes: "Some time ago I had had spells with my heart which I believe was caused by nervousness. I tried everything I could think of, but could get no relief until one of my friends persuaded me to get a box of

**MILBURN'S HEART AND NERVE PILLS**

After I had taken a few boxes I got wonderful relief.

I now weigh one hundred and thirty-five pounds where, before, I never went over sixty."

Price 50c. a box at all drugstores or dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

**AFTER ALL There's Nothing To Equal Zam-Buk FOR THE SKIN!**

### Survey of Hudson Strait

Objection is Taken to the Term "Arctic" in Describing Conditions  
President J. A. Steneman, of the Saskatchewan section, United Farmers of Canada, protests against the Canadian Press dispatch of April 28, regarding the air survey of Hudson Strait on the ground that it describes the conditions of the strait as Arctic for most of the year.

In reply, J. E. B. Livesey, general manager of the Canadian Press, expresses sorrow if the dispatch can be construed in the sense complained of, explaining that the use of the word "Arctic" in reference to weather conditions is not "construed" in the strait, is used more in descriptive than a geographical sense, but the expression itself, he says, has the sanction of the authorities, for Arctic winter and the Arctic zone are not necessarily confined to the Arctic circle.

In conclusion, Mr. Livesey says: "The object of the expedition is to report more fully than has been done hitherto on the period of navigability of Hudson straits, and at those of us, in eastern and western Canada, who have faith in the Hudson Bay route, will look forward anxiously to very encouraging results which, however, will not be attained in the winter months without exposure to pretty rigorous climatic conditions."

**Praises this Asthma Remedy.**  
A grateful user of Dr. J. D. Kellogg's Asthma Remedy finds it the only remedy that will give relief, though for thirteen years he had sought other help. Years of needless suffering may be prevented by using this wonderful remedy at the first warning of trouble. It is a simple, harmless, and it can be purchased almost anywhere.

### A Puzzle for Scientists

Life Cannot Be Defined Says Professor of London University

That a living organism is not to be differentiated from a non-living substance so readily as is commonly supposed was demonstrated by Professor J. C. Drummond, of the biophysics department of the London University, in a lecture on "The Chemical Aspects of the Nature of Life." The point he made was that differences in living organisms appeared to be traceable ultimately to differences in the proteins in the constitution of their cells, and that this might give a mechanistic aspect to many biological problems arising into the field of chemistry. Professor Drummond said one could not define "life," because we were but beginning to recognize that only the roughest differentiation could be made between the living and the non-living.

If they attempted to judge which phenomena were characteristic of the living and which were typical of the dead systems, they found that such characteristics as assimilation, respiration, growth, reproduction, irritability and movement were, collectively, typical of the living, and offered a rough and ready method of differentiation, though some of these characteristics might be shown by non-living systems.

Worms eat fruitfulness and rob the infant of sleep, the great mother, Mother Nature, Worms Everywhere will clear the stomach and intestines and restore healthfulness.

### Canadian Tobacco Abroad

Canada Sending Large Shipments to Great Britain

Canada is sending increasing supplies of tobacco to the West of England, according to the Trade Commission at Bristol. One organization has built a factory in Ontario have their own buyers, and are packing the best Canadian Baryle, to suit the English trade. Consumers in England are getting used to Canadian tobacco and with the Empire preferential duty, which amounts to 15 cents per pound less than the duty on foreign tobacco, increasing quantities of Canadian Baryle will find their way to the United Kingdom.

When you hear a married man say that he hasn't made up his mind about a thing, it means that he has not asked his wife about it.

For all pain—Minard's Liniment.

### Governor of Rotary

T. A. Torgeson, of Estevan, is Elected District Governor

T. A. Torgeson, of Estevan, Sask., was declared elected as district governor for the coming year at the close of the first session of the fourth district of Rotary convention at Winnipeg. One thousand persons were in attendance.

Sounding the note of high idealism which characterized the objects of Rotary, past international president, D. A. Mahan, appealed for the best of the best in the line of every Rotarian, in a stirring address.

The governor's report showed Red Deer, Alberta, to have won the George Koebel trophy for attendance during the year, while Prince Albert club won the Osborne trophy for the largest percentage increase in attendance.

### MacMillan Going North Again

Will Lead Expedition Into Arctic Latter Part of June

Setting sail from Wharfedale, Maine, next June 28, Commander Donald B. MacMillan, Arctic explorer, will lead a new expedition into the far north to spend 15 months exploring and studying uncharted Arctic wastes, the Field Museum of Natural History, sponsoring the expedition, has announced.

A race still living in primitive state and virtually unknown to science except as Eskimo Indians, will be sought out and studied; the fossil mountains of Bathurst Land, a region of creatures or evidences believed to have lived there thousands of years ago, and the remnant of the last great ice sheet which in a past geological age swept down across part of North America, will be explored and studied.

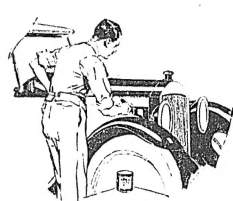

### University Women's Prize

Miss Phyllis Gregory, of Vancouver, B.C., was announced recently at the meeting of the Toronto University Women's club, as the winner of the 1927 scholarship of the University Women's club of the Dominion.

The scholarship will provide Miss Gregory with a course at the University of London, London, England.

Although the man who marries a widow seldom says anything about his wife's first husband, there are times when he wishes he was still alive.

All that comes to him who waits is a request to move on.

## Make it new with DUCO

THE PUBLIC have been quick to appreciate the many advantages of Brush DUCO, and today hundreds of cars are being re-finished right at home.

You will be amazed at the ease with which DUCO can be brushed on your car and you will be proud of the work when it is finished.

We have issued an instruction folder which you can obtain from any DUCO dealer and it is advisable to read this carefully. You can't go wrong if you follow the simple instructions.

If the surface of your car is checked or cracked, give it a coat of Flint Auto and Metal Surface before applying Brush DUCO.

Good dealers everywhere can supply you with Brush DUCO, DUCO Thinner, DUCO Polish No. 7, and Flint Auto and Metal Surface.

# Hudson's Straits Air Survey To Undertake Hazardous Work In Northern Waters This Summer

The Hudson's Straits air survey expedition will set out from Halifax on board the Canadian government ship Stanley, early in July, according to information from Ottawa.

For the following fifteen months the Royal Canadian Air Force detachment will be engaged upon one of the most intensive and hazardous flying jobs ever undertaken in the North. It is stated, The flights across the Pole were brilliant feats, but they were in the nature of short dashes, involving some hours of endurance, but the Royal Canadian Air Force work will require fifteen months of day to day flying under all kinds of Arctic weather conditions for the purpose of observing ice and ice conditions.

During the early summer six Fokker seaplanes will be put through severe tests and conditioned for the work in the North. Nearly fifty officers and men under Flight Lieutenant Lawrence will be engaged on the work.

The planes, along with a vast amount of material including all food and clothing, fuel and building materials, will be packed on board the Stanley. The expedition will be broken into three detachments upon the arrival at the straits. One detachment will be established on Nottingham Island, which is in the centre of the western end of the straits. Another detachment with a similar establishment will operate from Port Burwell, on the northern tip of Labrador, while the headquarters station will be at Lake Harbor, on Baffin Island, about halfway through the straits.

Powerful wireless equipment will be taken north and it is expected that the expedition will be in almost daily touch with the Air Force headquarters in Ottawa.

The navigation part of the survey will be under the direction of the Department of Marine and Fisheries and it is quite possible that Alex Johnston, deputy minister of the department, may go north on board the Stanley in July. The Stanley, which is now being reconconditioned, will not stay in the straits throughout the winter, but will return south late in the summer.

Parliament at the last session approved a vote of \$800,000 for the survey, but unofficial estimates put the total cost at nearer a million dollars. It is pointed out, however, that at the conclusion of the work there will be a substantial salvage: the Air Force will have the seaplanes and the Department of Marine will have the reconconditioned Stanley, which has been out of use for some time past.

The Air Force report will be made to the Government and upon the results of its findings of ice and fog conditions in the strait depends much of the future possibilities of the Hudson's Bay Railway. At the other end of the Hudson's Bay route there will also be flying activities this summer. A private flying company has been taking in men and equipment from the recent end of steel to Port Nelson and Port Churchill and before the end of the summer Hon. Charles A. Dunning may look over the terminal possibilities himself by seaplane.

The Air Force expedition is quite separate from the annual trip of the Northwest Territories officials. This voyage will be carried on as usual taking mounted police and scientists in and out of the Arctic.

## A High Birth Rate

Canada Leads All the White Races of the World

Canada's birth rate leads all the white races of the world, being 23.7 to the 1,000. Saskatchewan's rate is even higher, being 21.7 per 1,000. New Brunswick alone surpasses Saskatchewan with a rate of 27.1. Saskatchewan also enjoys the distinction of the lowest death rate among the provinces, and, in fact, in the world, the figure being 6.8 per 1,000 of the population. Next to Saskatchewan is New Zealand with 8.3 per 1,000.

"Why is it that you have broken off your engagement, Alice?" asked her fair friend. "Oh, my dear! I told me he was connected with the movies, and the very next day I saw him driving a furniture van."

"The will, recently probated, of a Massachusetts man was written by hand on a strip of paper measuring, even feet, the writing filling all but three inches of the document."

W. N. U. 1680

## Advice for Airmen

Remarkable Instructions Issued by British Air Ministry to Pilots in Training

"Chew gum and click your ears!" These are two remarkable pieces of advice contained in the latest instruction manual issued by the British Air Ministry to pilots in training. It appears that flying at high altitudes causes a different pressure on the outer and inner eardrums, and constant swallowing is necessary in order to equalize it. Chewing gum helps to keep the muscles of the head active in this way. Thin, temporary deafness, and other ailments caused by the unequal pressure can be cured by "clicking" the ears. This strange feat is performed by pinching the nostrils and breathing outwards.

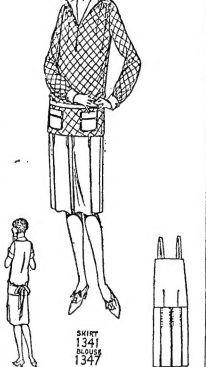

## Registered Seed Grains

Saskatchewan Seed Pool Reports Doing a Big Business

The business of the Saskatchewan Seed Pool is reported more than double that of last year. There has been a particularly big increase in the call for forage crop seeds, while the demand for seed oats shows a bigger increase than the call for seed wheat. Ample offerings in all lines of registered seed grains are on hand at the cleansing plants, facing the present facilities, to taxim.

Winnipeg Newspaper Union  
Fashion

The Two-piece Frock is More Important Than Ever

This season the two-piece frock rules over a wider domain than ever, and on many days, the hours of its reign extend from morning to evening. Therefore, it must be practical, yet combine as well, a semi-formal charm for leisurely leisure. The model pictured here is a typical example of a sports costume that is smartly correct for either a morning of shopping, or an afternoon of bridge. The blouse slips on over the head and has a collar that may be worn buttoned high or turned back as illustrated. The front of the blouse has gathered at each shoulder and two patch pockets for adornment, the back being quite plain. The long set-in sleeves are gathered into tailored cuffs fastening with links. The string belt is a new detail and provides a soft bloused effect at the hips. Fullness in the skirt is attained by two boxpleats in the front. The blouse, No. 1311, is in sizes 24, 26, 28, 30, 32, 34, 36, 38, 40, 42 and 44 inches bust. Size 26 requires 2 1/2 yards 26-inch figured material; 1/2 yard plain. The skirt, No. 1311, is joined to a body lining and is in sizes 24, 26, 28, 30, 32, 34, 36, 38, 40, 42 and 44 inches bust. Size 26 requires 1 1/2 yards 26-inch material; body lining 1 yard. Price 20 cents each pattern. Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

## Raw Fur Production

Total Market Value of Pelts Taken by Trappers Reaches High Figure

To the value of \$1,500,000, the Canadian Fur Auction Sales, Limited, sold a wide variety of pelts in the recent five days' session at Montreal. "One of the best sales weeks we have ever staged," according to F. H. Pingree, general manager. Silver fox skins to the number of 2,000 were auctioned, the top price being \$115.

The total value of the raw fur production of Canada for the season 1925-26 was \$14,905,588, compared with \$15,441,564 for that of 1924-25, and \$15,613,817 in 1923-24. These figures represent the total market value of the pelts of fur-bearing animals taken in Canada by trappers or on ranches. In the order of importance, mustelids came first with 1,853,546 pelts at 3,613,175, followed by beaver with 111,797 pelts valued at \$2,208,855. Next came musk, red fox, white fox and silver fox.

## Alfalfa Seed For Denmark

Two Carloads of Seed From Alberta Shipped to Denmark Growers

The sale of Grimm's alfalfa seed, grown in the Brooks district, and shipped to Denmark is claimed as another "feather" in Alberta's cap. For some time past, experiments have been carried on in Denmark with this particular seed. So successful have these been, that the Danish growers purchased two carloads. The Danish growers would have taken twice that amount had it been available, but owing to United States growers placing large orders, the local seedmen have not been able to keep up with the demand. Growers of Grimm alfalfa seed have been paid \$10 an acre clear for their product.

## B.C. Has Advantage in Dairying

Stock Can be Pastured Practically All of the Year

The prediction has been made by Dr. G. C. Crovman, former president of the Ontario Agricultural College, that British Columbia will become the greatest dairying district of Canada. This is the conclusion he has drawn from a study of conditions on the Pacific Coast. One great advantage is that dairy stock can be pastured practically the whole of the year, whereas in Ontario they had to be fed six months in the year and 60 per cent of the produce of a 100-acre dairy farm with an average amount of stock had to be used for feed.

Will Deliver Official Welcome Premier W. L. Mackenzie King will deliver the official welcome on the behalf of the Dominion of Canada to the delegates to the World's Poultry Congress on the opening, date, July 27.

Sally—"No, I never would be happy if I married you. You know I always want my own way." Ted—"Well, you can go right on wanting it after we're married."

A man often loses lots of money experimenting with schemes to make money without work.

## First Refugee from Chinese War

Mrs. Melvin Southwick, of Harrison, N.Y., returned to New York, April 12th, aboard the world-circling Canadian Pacific flag ship Empress of Scotland, with her infant daughter (then 12 weeks old), who was born in Hankow, China, a few days before the inhabitants were ordered to evacuate. She went to Shanghai and thence to Kobe, Japan, where she embarked on the Empress of Scotland. Her husband is still in Hankow, acting as representative of the Standard Oil Company there. She

## German Firm Insures Against Bad Weather

Quite in Keeping With Progressive Spirit of Age

For many years we have been used to hearing of odd guarantees undertaken at Lloyd's in the form of insurance against all sorts of risks in almost every conceivable manner and under the most weird conditions. It has remained for the German insurance companies to undertake a general weather policy. The advantages of this ought to be obvious to the most obtuse mind. For instance, suppose you have arranged to take your holidays in the first half of August, and instead of sunny skies and balmy air, you have lowering clouds and continuous rainfall. What a comfort it would be to notify your insurance company and quietly await the arrival of their cheque "in full settlement of claim on account of inclement weather."

According to this German system, you can take out a policy for any number of days in the whole year, and there is no difficulty about safeguarding yourself. How the matter will work out if racing men begin insuring themselves against turf losses through weather risks it is not so easy to determine, but doubtless methods will be found to protect the insurance companies from any misinterpretation. The principle of insurance against weather reverses seems a sound one, quite in keeping with the progressive spirit of the age.

## Growing Desire for Beauty

Ninety-nine Thousand Rose Trees Purchased Last Year

Each successive year sees a considerable contribution made to the general beautification of Canada. Evidence of this is disclosed in a recent report issued by the Canadian Government Bureau of Statistics, which states that ninety-nine thousand rose trees were purchased last year from wholesale growers in the Dominion alone.

Nine hundred thousand other ornamental plants and shrubs were bought from Canadian growers to be planted about the houses. Home-makers bought half a million plants, and many thousands of bulbs, and of the dozen varieties of cut flowers raised by florists, the flower-loving public took fifteen million plants, paying over a million and a quarter dollars for them.

These figures do not include imported plants and flowers, nor those raised by amateur gardeners, a vast by-product showing. The figures are simply those of the wholesale trade, which received over a million and a half dollars from the retailers and direct purchasers.

This was the first year of the inquiry, and there are hundreds of nurseries who made no returns.

Statistics show that nearly all motor accidents occur at week-ends. Monday was once wash-day. Now it is the day when mother sees whether all her family have survived the week-end.

"That, my boy," said the farmer of coins to his son as they passed the Mini, "is our principal competitor."

# Western Inland Fisheries Have Been Developed More Highly Than In Any Part of the World

## Alberta Forage Crop Cars

Forage Crop and Poultry Cars Can Give Information to Farmers

The forage crop and poultry cars which were operated in Alberta by the Canadian National Railways in conjunction with the Alberta department of agriculture have concluded their itinerary. Twenty places were visited and the movement was confined to districts in which the Western wheat-stem is now raising and in which the fertility of the soil, due to continuous grain growing, is rapidly becoming depleted. Where soil impoverishment is found, the inclusion of forage crops in the farming rotation will add fibre and increase the soil content of available plant food, and as a sweet clover and the broad leaved forage crops are immune from attacks of wheat-stem sawfly, the growing of such crops will play an active part in controlling and eliminating this pest.

The total acreage was 1655 of an average of \$2.3 per acre per acre. Forage crop needs amounting to 6,550 lbs., valued at \$54.10 were sold, comprised of, clover, 425 lbs., grass, 2,819 lbs., sweet clover, 2,215 lbs., and alfalfa 100 lbs. At each point lectures on the value of forage crops in the farm rotation and their relation to the keeping of live stock were delivered by James Murray of the Alberta department of agriculture. Interest was keen and many questions on cultural methods were asked.

A lecturer on poultry gave talks on the fundamental principles necessary for the successful care and management of the farm flock. Much interest was shown by farmers in this phase of farming, which indicates they are rapidly becoming appreciative of the value of including side lines in their farming activities. Many farmers took the opportunity of commissioning the poultry lecturer to secure supplies of hatching eggs and day old chicks.

## "Carat" as Applied to Gold

Refers to Purity or Quality and Not Actual Weight

"Carat" is a corruption of a word that used to stand for a particular sort of tiny seed. As these seeds were always exactly the same size, they became a recognized standard of weight for such small articles as jewellery and precious stones, in the weighing of gold, 21 of these carats went to one special coin, now long obsolete.

Today the term carat has nothing to do with the actual weight of gold, but refers to its purity or quality only. By itself gold is too soft for common use, and has therefore generally to be mixed with some other metal, and when we speak of "22 carat" gold we mean that out of 21 parts of it 22 are really gold. As a matter of fact, even this alloy of 2 parts in 21, or one-twelfth, of harder metal is barely sufficient, and except for wedding rings, 22-carat is seldom used, 18, 15 or even 9-carat being far more common.

## De Luxe Airplanes On London-Paris Route

Machines Are Capable of Carrying Twenty Passengers Each

Airplanes with buffers, bars and other luxuries have been put on the London-Paris service by the Imperial Airways. Planes will have each city at noon daily and the line will be known as the Silver Wing Service. As there are no regulations for licensing airplane restaurants or bars the company will be able to sell food and drink aerially without a license. Each plane will carry a steward.

Three-engined Army machines capable of carrying twenty passengers each, will be used in the new service.

The company has decided henceforth to name all planes after cities. For some time planes named the City of New York and the City of Washington have been flying between capitals.

The old-fashioned man who used to put his fourteen-year-old son on the train for a twenty-mile journey and tell the conductor to take care of him now has a grandson of the same age who can drive the distance in twenty-three minutes.

A man without a single idea is less of a bore than one who only one idea.

It takes more than nine men to make a fly blonde fly.

Nowhere in the world have inland fisheries been developed as they have been in Canada. Apart from Canada's share in the Great Lakes fisheries which are valued commercially at some \$2,000,000 annually, there are tremendous bodies of fresh water literally teeming with fish of the highly edible qualities.

In all the three Prairie Provinces, numerous lakes and rivers, covering nearly 21,000 square miles in area, abound in valuable food fishes. Whitefish, the most abundant species, is unequaled in quality and is in great demand, while pickerel, tullibee, lake trout, pike, goby, and sturgeon, with its delicious roe, also find a ready market. Other varieties include perch, haddock, catfish and fling. Whitefish weighing over four pounds each, dressed, are known as "jumbos" and bring the best returns. Dealers paid the following prices for the summer catch of 1925, on the basis of dressed fish at the point of shipment: jumbos, ten to fourteen cents per pound, and whitefish weighing less than four pounds each, from six to ten cents per pound.

Commercial fishing is for the most part carried on in the winter season, when the chilled or frozen fish may be shipped to distant points. This winter catch is marketed in the Canadian interior and adjoining American states. A large demand has been created in Chicago and numerous other middle western cities, while occasional shipments have been made to such distant points as Montreal and New York. Some summer fishing also takes place, the catch being marketed in the nearby towns. The value of the fisheries from the so-called prairie provinces according to the latest official returns is \$2,265,000 annually although if the value of fish caught for domestic and export angles is used could be estimated, and added the total would doubtless be very much higher. The importance of the fish supply to native life in isolated northern districts is indeed beyond monetary value.

Some of the greatest lakes in the continent—Reindeer, Athabasca, Great Slave, Great Bear—and hundreds of other important but smaller bodies of inland fishing industry, beyond reach of commercial exploitation through lack of transportation facilities.

During the past couple of years, according to information issued by the Natural Resources Intelligence Service of the Department of the Interior, there has been introduced into this inland fishing industry, a new branch of unusual economic importance, namely, the filleting of fish. Heretofore this kind of fish had no market value, but it has been found that fillets of pike, neatly packed in wooden boxes and shipped fresh on ice or freshly frozen, can be readily disposed of in the markets which handle the whitefish.

Though the pike is a coarse fish and somewhat unattractive in appearance it has a good, wholesome food value, and when the edible portions are separated from the skin, bones and other waste, they can be shipped and sold to advantage.

In fact this is the most economical manner of shipping many species of fish and the ready-for-cooking form in which the product is thus displayed in retail shops appeals favorably to the ultimate consumer. Enterprising fish dealers in some eastern section are now advertising their products in this form almost exclusively.

The introduction of this branch of the fishing industry to Western Canadian waters is proving of dual value. It not only enlarges the market range of the fisherman, enabling him to dispose of a product formerly valueless, but it encourages the capture of a destructive fish, whose voracious habits make it a source of great havoc among the more highly prized white fish, pickerel and other species. This filleting of pike is now being successfully presented as far north as Lesser Slave lake where a plant is in operation.

## Americans Buy London Clothes

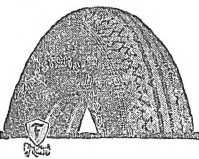

"Many American stores, weary of their habits as clearing desks for old clothes," said an official of a leading dealer, London being regarded as the world centre of masculine fashions, the visitors take opportunity while there to catch up on style. Some patrons have left as many as ten suits behind them.

Post Office Clerk—You've put two cents too much postage on this letter.

Oh! Lady! Oh, dear! I only hope I won't go too far.

## Leaders Of Them All!

The highest expression of Firestone quality and value is the Full-Size, Gum-Dipped Balloon. This pioneer among Balloon tires—and the leader proved by performance—was made possible by Gum-Dipping, Firestone's extra process for strengthening the walls to endure the extra flexing strain.

Learn from your Firestone dealer the many advantages of Gum-Dipping—the added comfort, dependability and greater economy.

## WORLD HAPPENINGS BRIEFLY TOLD

Col. W. A. B. Shaw, Canadian V.C., has been officially presented a chain of command in England.

The Toronto Hydro Electric Commission has provided four new cars as a protection for its cashiers against hold-up men.

In operation since before Confederation, the Welland railway, one of the oldest steam roads in Ontario, has ceased to carry passengers, mail and express.

A gift of \$500,000 by John D. Rockefeller, Jr., was included in total contributions of \$1,725,000, has been announced in the New York Y.M.C.A. building campaign.

On the ground that aeroplanes on dinner small watercraft, summer residents of the Thousand Islands have begun a movement to have planes for hire prohibited.

With Queen Wilhelmina presiding, Princess Juliana, who attained her majority April 30, was ceremoniously inducted to the policy council, in which she is entitled to membership by virtue of reaching the age of 18.

A German effort for a reduction in the blindfold occupation is hurried, the German Zeitung asserts. The Government is expected to call attention to the formal promise it received on this question, emphasizing that a solution cannot be postponed.

At a meeting of the Royal Winter Fair executive in Toronto, it was decided that all animals exhibited at the fair in future should pass the Dominion Government's health test before being shown. The event this action was later approved at a meeting of the directors.

## The Barrier to Health-- Waste Matter in the System

Toronto, Ont.—"I have never taken medicine that is so good as Dr. Pierce's Pleasant Pills. For many years I was bothered with sluggishness, I would become constipated, have dull headache, feel drowsy, sleepy and mean. I took different pills but without results until I began taking Dr. Pierce's Pleasant Pills. Since taking them I have had no such trouble. I take them about twice a week and they keep my whole system in perfect condition. I can never without a bottle of the 'Pill' and I highly recommend them; there is nothing better." Mrs. Henry Dean Peters, 4000 E. 1st Ave., St. Louis, Mo.

## How Should I Wean My Baby?

This is a serious problem to many mothers. Weaning should always be done gradually, beginning about the seventh month, giving one or two bottles feeding, during the day, increasing the number at bottle feedings gradually until weaning is accomplished. Borden's Eagle Brand Milk is so like mother's milk in taste and ease of digestion that it can be given alternately with breast milk without causing abrupt weaning.

In this paper from time to time you will find an advertisement of Borden's Eagle Brand Milk, a food that has raised more healthy babies than all the prepared infant foods combined. Cut out the advertisement and mail it to The Borden Company Limited, Montreal, and they will send you, free of charge, instructions for feeding your baby, and a Baby Welfare and Baby Record Book. Or, just write the Company, mentioning this paper, and they will be sent.

## A Memorial Window

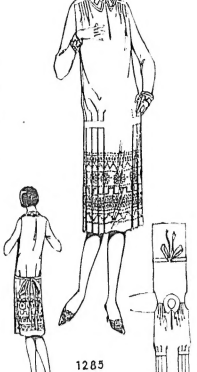

To Be Erected in Winnipeg in Remembrance of Major-General L. J. Lipsett

A memorial window for Major-General L. J. Lipsett, general staff officer, who commanded the 5th Battalion C.E.F. during the war, is to be placed in St. John's Church, Winnipeg. An inscription stating that it is erected to the memory of General Lipsett by the 2nd Can. Division, and the 5th Battalion C.E.F., will be placed in the window. War veterans throughout western Canada who may wish to subscribe to this memorial fund, may send any amount, no matter how small, as it is wished to make the subscription as representative as possible. Remittances may be sent to St. P. E. Patton, assistant general manager Dominion Bank, Main and Metcalfe Streets, Winnipeg. Subscriptions to be sent not later than June 1st, 1927.

## Winnipeg Newspaper Union

*Fashion*

1283

Platts Assume Importance

The latest reductions concerning the appareled subjects, adult platts to be of importance in business, about the desired old skirt. In this garment one piece, thick, narrow, box-platts are placed over the skirt, the front, extending from the belt to below edge, and provide the desired flange. The plain back is in one piece, extending over the shoulder in a yoke effect. There are a group of slanting plaits at each shoulder, and the long plain, sleeveless, and the long narrow cuffs. The diagram pictures the simple design of No. 1283, which is in sizes 16, 18 and 20 years (or 21, 23 and 25 inches bust only). Size 16 years 66 bust requires 3 1/2 yards (20 inch); or 24 yards 51 inch material. Price 25 cents.

The secret of distinctive dress lies in good taste rather than a haphazard expenditure of money. Every woman should want to make her own clothes, and the home dressmaker will find the designs illustrated in our new Fashion Book to be practical and simple, yet maintaining the spirit of the mode of the moment. Price of the book 10 cents the copy.

## SEEKS LARGE LAND TRACT

Dr. Emil Lengyel, personal representative of Count Karolyi, former premier of Hungary, visited Western Canada in April to look for a suitable agricultural area upon which the Count with a large body of retainers from his estate in Hungary, who he is a distinguished author, made a trip through the Lethbridge and Kootenai districts of Saskatchewan and the Minotoma districts of Manitoba in company with W. E. Walters, travelling land consultant representative of the Canadian National Railways, and was much impressed with what he saw. The photograph, taken upon Dr. Lengyel's return to Hungary, shows, from left to right: F. J. Freer, superintendent of Land Settlement, Canadian National Railways; Dr. Emil Lengyel and W. E. Walters.

## Italian Arrested For Selling White Bread

Law Imposed by Mussolini Forbids Any But "Economy Loaf"

Shopping fascists, at Naples, followed a hearse, sniffing, they intimated the aroma of fresh bread. Soon the mortician was handcuffed, his hearse forced to contain white loaves. Weeping, imploring, the wretched corpse was dragged away, was jailed. He had broken the law forbidding the baking, transport, or sale within Italy of bread whiter than the "economy loaf" imposed by Signor Mussolini—a loaf either of whole wheat flour, or of white flour mixed with coarser grain. Since the mortal who broke the law, a list of rich Neapolitans who have been buying his bootlegged bread, these potent folk trembled, feared arrest or fascist reprisals for their iniquity.

## WEAK AND NERVOUS

The Condition of a P. E. I. Lady Who Again Rejoices in Good Health

"I can most heartily recommend Dr. Williams' Pink Pills to all weak people," says Mrs. Augusta Arsenault, Wellington Station, P.E.I. "Before I began their use I was very weak and nervous. I had always worked hard, with no thought of my health, until suddenly my strength left me. I began to feel tired and depressed, and did not sleep well at night, feeling just as tired in the morning as when I went to bed at night. I began to feel discouraged when I would think of the work necessary for me to do. I got some medicine from the doctor when I consulted, but it did not appear to meet my case as I showed no improvement while taking it. Then a neighbor advised me to try Dr. Williams' Pink Pills and I got a supply of this medicine. I very soon found they were helping me, and I continued their use until I was well again, and I have been strong and well ever since."

Dr. Williams' Pink Pills do one thing—and do it well. They build up the blood, and catch the blood, and as the blood supplies the whole body, new life is given to the entire system. Better sleep, increased vigor, improved appetite, increased vitality—all these can be yours by taking Dr. Williams' Pink Pills. Begin today. Sold by all medicine dealers, or by mail, post paid, at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Alberta Pool Elevators

The Alberta Wheat Pool has leased No. 2 elevator at Vancouver at \$100,000. This Pool will have two elevators in Alberta by the end of the year, according to C. M. Hall, manager of the elevator department.

Mrs. Brown—"Where's your faith in me?"

Light Son—"Oh, he's out taking a little ride in the mortgage."

## Sure Signs

of kidney troubles are pain in the back, difficult urination, deposits in urine. Gin Pills relieve kidney trouble by gently soothing and healing the inflamed tissues. 50¢ a box at all druggists.

## Motor Drivers in Britain

One in Twenty of Inhabitants is a Motorist

How many people are there in Great Britain who actually drive motor vehicles.

The figures issued by the ministry of transport showed that 3,196,916 licenses were issued last year in respect of cars, commercial vehicles and the motor cycles do not, says the Daily Mail, give an indication of the number of people who actually drive, nor of the number of vehicles in existence, as a large proportion of the licenses were for quarterly periods.

But there is another return which shows \$2,819,529 as the amount received for driving licenses. In this sum is included a very small amount received in respect of unpaid car licenses. Driving licenses cost \$125, so that there were more than 2,296,000 actual drivers of motor vehicles in 1926, in some cases a private car is driven by several members of the family.

Taking the population of Great Britain as about 41,060,000, one person in every 20 is therefore a motorist. They have a long way to march up with the United States, however, where approximately one person in every six owns a motor car.

## Will Benefit Mariners

New Device Will Help to Minimize Dangers of the Deep

Had mariners known of such a thing as a "water report" back in the spring days of 1912, the Titanic might now be lying her majestic way across the seas and 1,200 lives might have been saved. Dr. A. G. Hansen, of the biological board of Canada, speaking before the oceanography section of the American Geophysical union, said the "water report" is based on tests of temperature and salinity. In the case of the Titanic, he said, it would have warned of the proximity of icebergs. It will benefit fishermen, too, in locating schools of fish and will aid meteorologists in making weather forecasts.

## Future of Vancouver Port

Roger Babson, noted statistician, in addressing the Canadian Club at Toronto, said that in 15 years' time Vancouver would be the greatest port on the American Pacific coast, and that it was only a matter of time when the trade across the Pacific ocean would equal, if not exceed, that of the Atlantic.

No surgical operation is necessary in removing cures if Holloway's Ointment be used.

## For Canadian Industries

It is intended by Premier Borden that the Ontario Government purposes to foster the creation of an industrial research institution with an endowment of \$2,000,000 for the purpose of solving scientific problems of production and progress for Canadian industries.

The grandeur of the man who blow out the gas now starts the automobile engine with the car in a closed garage.

"Doctor, what would you advise a man to take when he's run down?" "The number of the car, if he's in a condition to."

Speaking of love, a man should look before he leaps—otherwise he may fall in.

"Talk about water off a duck's back!—Just look at our shines, even after fifteen minutes in this downpour! There's certainly nothing quite like 'Nugget'!"

## "NUGGET" SHOE POLISH

There's a "Nugget" shine for every shoe made.

## APARTMENT BLOCK FOR SALE

ATTRACTIVE INVESTMENT PROPOSITION

The undersigned has for sale a most attractive, well rented, centrally located Apartment Block in Winnipeg, yielding a handsome return to the man or investor who could give the property his personal care and supervision. One with ordinary ability in handling tenants and tenants, and capable of doing his own repairs, would obtain the largest in the world when complete with a length of 700 feet and diameter 120 feet.

## SUNDAY SCHOOL LESSON

MAY 15

PETER AT PENTECOST

Golden Text: "Repent ye, and be baptized every one of you in the name of Jesus Christ into the remission of your sins; and ye shall receive the gift of the Holy Spirit." Acts 2:38.

Lesson: Acts 2.

Devotional Reading: Philippians 2:14.

## Explanations and Comments

1. The Coming of the Holy Spirit at Pentecost, verses 1-4. Before He left His disciples Jesus gave them a great commission. They were to convince others that He is the Son of God, that He lived and taught as only they could fully testify, that He willingly suffered death on the cross for the salvation of the world, and that He had risen from the dead and ascended into heaven. "Jesus Christ and the power of His resurrection" was a truth which the world would not readily accept, only through power given them from on high could these men accomplish their great task.

On the Day of Pentecost that power came. There was a sound as of wind and an appearance as of fire, the symbols of the Holy Spirit. The disciples found themselves praising God in words that sounded strange to them. The important fact was that they then realized that the Spirit of God had come into their hearts, that He was to abide in them as their Strengthener and Helper, to inspire and guide them in the work of making the Christ known to the ends of the earth.

"The Holy Spirit is just God speaking to each kind of man in his own tongue," John Reiman.

## Contend Aerials On Schools Are Dangerous

Paris Authorities Instruct Directors to Have Them Removed

On the grounds that wireless aerials might during a sudden storm crash down to the ground and injure passers-by, the directors of Paris public schools have just been requested to take down the aerials erected over their buildings.

The Paris municipal authorities justified their decision by arguing that the wireless sets installed in buildings used as public schools are not used by the directors for the purpose of teaching their pupils, but solely for their own personal amusement.

One Paris newspaper remarks that chimney stacks might be considered just as dangerous as wireless aerials and therefore ought to be abolished forthwith.

## Historic House Destroyed

The cottage at Shallow Ford, near Stankford, the house 250 years ago of Isaac Walton, author and fisherman, whose name has come down over the years as the author of "The Complete Angler," was destroyed by fire recently.

1917 Husband: "You have been using my comb. It's full of long hairs."

1917 Wife: "You have been using my comb. It's full of long hairs."

"When you were abroad did you use the Duane's?"

"Yes, we had dinner with them."

Many a man would be troubled with chronic insomnia if he knew what other people know about him.

### CHAPTER XXXV

#### The Fete

Peppets and mammoths poppets in conventional evening black that uniforms eager and black and white, and the mammoths of their yards, in the park, re-splendored to be the cheap and the superb; Phylaris and Co. humbly, eyes shining with the thrill of youth that crosses every threshold with merry speculation. In endless stream they drove from every reach of the Riviera to the gates of Villa Amore.

Beyond the gates the gardens are terraces, miniature lakes and fairy-like structures in delicately pink, stucco, were bathed in a dull silver flood of artificial moonlight. On the lakes tiny gondolas floated lazily, through waters rippled by dimly illuminated fountains that spouted faint perianths.

Hidden somewhere in a bow of orange trees an orchestra played his lamentations and its melodies of summer night passion. Tall palm-trees, bearded, black and fantastic, made towers among benches and tables, over stretches of the lawn had been carpeted with wash-basins purple, blue, radiolent, hyacinths and clematis. Now and then, from the branches of a pepper, or fig or pine tree, some fascinated bird of song trilled phlegmatically, too, to croak its note, soon bright in quill-like eyes.

During the day the gates had been closed to all others, only the work men, caterers, electricians, and the spluttering, unsmiling men who herded troops of dancers and more nondescript performers, had been allowed to enter the grounds. There had been frantic efforts to hurry answers to knock through the barrier so firmly guarded by watchmen; but none had been successful. Even the telephone, except that line which reached the offices of the servants, had been shut off. So it was that even the intimates of Villa Amore, those

who had watched the preparations from day to day, were utterly amazed at the splendor, the lavishness, the consummate artistry of the spectacle which they stroiled.

Teddy Dominator, who had been one of those whose call during the day had been little, stood amazed when, with his sister, Betty Weymouth, at his side, he turned about on the highest terrace to look over the sloping lawns. Betty exclaimed:

"Tidy, an appropriate whim for a Golden Girl!"

John took her suddenly in his arms. She did not resist but yielded to him fully.

"Darling, brilliant, extravagant!" Lord Teddy murmured. "But just the sort of thing to which you're born!" "It's not barbaric, there's nothing flouting. It is a splash of countless money and magnificence, but a mellow splash. Somehow I see a note of wisdom in it all."

Betty Weymouth was silent a moment. Then she said:

"Do you know, Teddy, I think you're right. There's something in this come tonight, this fete, that isn't mere extravagance; it's merriment. I know, but I believe there's more in it, some place."

"Yes, like a beautiful woman. There's joy always; but for someone, sadness, too."

Betty looked at her brother quickly, and understandingly. The sadness he sensed would be for him, that the girl whose spirit was being given expression tonight was beyond his honest want of her. "Come!" Betty said, "this is no time to be sentimental. There is Roddy Kenilworth, looking none the worse for that thrilling adventure he's rumored to have experienced last night with Joanna. Perhaps he'll tell us something. Nobody seems to know the straight of it."

Kenilworth, who frankly admitted that he was provoked by Joanna's refusal to hear from him during the day, treated the inquiries by Lord Teddy and Betty whimsically. "Whatever you've heard isn't true," he said. "And what's true isn't interesting. Just a comic opera hold up, with something fishy about it. The Monaco police notified me today that all valuables taken by the bandits had been mysteriously delivered to them in a package with the terse suggestion that they be returned to their owners."

"But Joanna?" Betty Weymouth asked. "You should never have taken her up. La Turbie, Roddy, they are ugly hints about it." Kenilworth ignored the policy. "It is ten o'clock already," he observed, "and neither she nor I have appeared. Both of them have an

admirable sense of the dramatic." Footmen in scarlet and gold moved among the guests bearing trays on which cobwebby glasses and silver decanters of wine and champagne and the more sensuous fluids of Bonaparte flowed freely. A young debutante from America, one of those whom Joanna used to copy but who, now, planned long and earnestly to hit upon ways of coping her, exclaimed to her companion:

"It's like a scene in a super-duper movie only so different. A movie party is always so coarse and cheap. Here everything is on such a scale of splendor that is romantic! There is so much wine and champagne about, but no one is silly!"

An English confidante whirled away on the immense lowered dance floor with a partner borrowed for the moment from a celebrated beauty from the clouds of the Follies Bergere. An Indian Prince, scornful of the rules of his caste, wrapped a spell with his somber black eyes about a young girl in satin and pearls. A couple of France discussed his wife with a Mont Carlo musician, in whose sunny head reposed the secrets of many other wives.

Into this enchanted garden the Golden Girl walked at last, with Yvonne beside her. In no bit of her that she could discern was there a memory of the night before; of the bitter, disastrous hour in the little room at the club house on La Turbie, of the desperate drive down the mountain, or of the scene at the fireplace with Yvonne and John as the actors. The police of her was regal, arrogant. The crowd that watched the turn of her head, the shimmer of her gold-brown hair, the dancing of a thousand phantasms in her deep brown eyes, saw only the pride and consciousness of her golden aura and her self-indulgence. It seemed to every one in that crowd that when Joanna had looked upon them, had accepted greetings and expressions of wonder, she gave her brown crowned head a merry toss and then plunged into the ecstatic, torrid heat of her golden wand had conjured.

Kenilworth managed to reach her. He caught her hands and hurried into a cascade of questions about the outcome of the night after the bandit took away, but she laughed at him. "I'll think and talk of it yesterday tonight, Roddy," she bantered. "I'm living now just for the hour. Everyone who dislikes me everyone who loves me is here tonight; who knows? You may dance with me once, a waltz, I think. Roddy, you may hold me close. I want every one to hold me close, tonight! If you haven't talk of anything except me just as I am tonight, come!"

She led him to the nearest dance place. At every vision of her, wherever she went, orchestras burst into their melodies. She stopped the band that had essayed a fox trot and ordered a waltz, and danced it slowly with Kenilworth. When the music died she turned to another, watching her hand as she swept away.

(To Be Continued.)

**Largest Landowner in Empire**  
Sir Sidney Kidman, known as Australia's cattle king, will shortly visit England and America on a combined holiday and business tour, during which he will make inquiries regarding the beef trade. Sir Sidney Kidman owns flocks and herds by the hundred thousand in South Australia and is reputed to be the largest landowner in the British Empire. He started on a cattle farm at \$2.50 a week.

The man who minds his own business and leaves it entirely up to other people to look after their own affairs really has very little to worry about.

**ECZEMA IN SMALL PIMPLES**  
On Hands and Face. Itched and Burned. Cuticura Heals in Six Weeks.

"Eczema broke out in small pimples on my hands and face. The pimples were hard and itched and burned. I could not put my hands in water because it made them worse. I could not help scratching and rubbing the affected parts and causing disfigurement. The trouble lasted three months. I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. I purchased more and in about six weeks I was completely healed." (Signed) John A. MacDonald, South West Margate, N.S.W.

Nothing quicker or safer than Cuticura Soap and Ointment for skin troubles that itch and burn. Send for a free sample. Address: Cuticura, Dept. 10, New York, N.Y. Cuticura Soap and Ointment are sold everywhere. Cuticura Shaving Soap, 25c.

## Spring Tints

Gaily colored frocks this Spring! Underlinings in soft shades to match! Tint them in ordinary water—but with true dyes. Dipping will do it. The dye is permanent, just dip in boiling water instead of cold.

Hand-dyed powder is "fifteen cents" any dyer; so why do you have a job with something not so effective? And when you want the tint to be permanent, just dip in boiling water instead of cold.

The dyer has color cards and simple directions for doing perfect dyeing of all sorts of material: silk or wool; linen, cotton goods, mixed goods, or any goods at all; and requires thinking of dyes, dyes, or send for a marvelous book of suggestions in full colors. Ask for "Dyes for Dyeing" by H. L. GATES, 233, Windsor, Ontario.

## Diamond Dyes

Dip to TINT—Boil to DYE

### World's Most Modern Warship

Last One Allowed Great Britain Under Washington Treaty

The 25,000-ton Nelson, the last battleship Great Britain can have under the terms of the Washington treaty, has arrived at Southampton from the Tyne shipyards. It is the absolute last word in battleships, said to be the most modern in the world, and the first British battleship to copy the method of triple gun turret. The turrets each contain three 16-inch guns, while the main six-inch turrets are 16-inch guns of the new size and fire shells weighing more than a ton. The guns themselves weigh a little more than 110 tons each and are protected by a special thick armor.

The ship is protected from aircraft by armored steel, bombproof decks, and under water it is designed to resist the explosion of more than four torpedoes. How many aeroplanes and catapults for discharging them are carried is kept secret. The battleship is 702 feet long, 106 feet broad, and carries a crew of 1,200 officers and men. It cost £7,000,000 (\$25,000,000) to build and requires £422,000 (\$2,160,000) for annual upkeep.

### World's Record Hen

White Leghorn Hen Proving a Money Maker for B.C. University

"Malzie," the White Leghorn hen, that last year established a world's record by laying 251 eggs in 255 days is proving a big money maker for the University of British Columbia Farm. Known as "Hen No. 6," she not only produces over the world's record pen, but with her eggs is bringing into the treasury of the University \$230.

"We have actually sold \$1,425 worth of stock from Hen No. 6, and have reservations for \$1,275 worth, which will bring the total up to \$2,700," says Prof. E. A. Lloyd, head of the Department of Field Husbandry. "Hen No. 6 is a member of the world's record pen, from which we are also selling a considerable number of hatching eggs, particularly from the other four 200-egg members of the record pen at \$7 to \$10 per egg."

Egg and progeny from this pen have found a market in all parts of Canada, the United States, and as far away as Australia.

### The Power of Advertising

Card in Florida paper—"Thursday I lost a gold watch which I valued very highly. Immediately I inserted an ad in your last-mentioned column, and waited. Yesterday I found the watch in the pocket of another suit. God bless your paper."

The old gentleman was a little bewildered at the elaborate wording. "Are you a groom?" he asked the melancholy looking young man. "No, sir," the young man replied, "I was eliminated in the preliminary rounds."

A Hindu artist is planning a world tour, during which he hopes to pay his expenses by writing on grains of rice. Working four hours, he is able to write four hundred letters on a single grain.

Deserted by their mother, three lion cubs, born in Oakland, California, were adopted and fed by a Spanish setter.

### Advance in Medical Science

Instead of Eating Fasting is Recommended as Cure

Somebody dug up a document out of some eighteenth century papers disclosing some curious practices of the medical fraternity in those days. One of these papers revealed that sick persons were sometimes ordered to eat seven meals a day, as much as they could stuff at a time, with concomitant copious draughts of brandy, sherry and other wines. No doubt the idea was that the patient should "eat to keep up his strength."

Nowadays the tendency—especially among the chaps who make easy money by writing medical columns in the newspapers from an easy chair instead of getting among sick folk, is precisely in the opposite direction.

People are told to take plenty of exercise—pushing themselves away from the table, for instance, before they are satiated and not only to eat down on diet substantially, but even to indulge in a fast for a few days or a few weeks occasionally. In fact, fasting seems to be recommended as a sort of cure-all.

This complete turn of the wheel reminds us of the story of the man who went to a doctor and complained of stomach trouble. "Take heavy meals," said the medical man, "and that should cure your ailment."

A week later the man went back and said the trouble was worse than before.

"Eat very sparingly," replied the physician, "and that should cure your ailment."

"But, doctor," protested the man, "you told me just the reverse last week."

"I'm sure," said the wise man, "but you see, medical science has made vast strides since then."

### Little Helps For This Week

As many as I love, I rebuke and chasten. Rev. Ill. B.

Great Master, touch us with Thy skilful hand.

Let not the music that is in us die. A Great Seagull, how and pollard us, no, no.

Hidden and lost, Thy form within us lie.

Spare not the stroke, do with us as Thou wilt.

Let them be taught unfeignedly, honest, unfeignedly.

Complete Thy purpose, that we may become.

The perfect image, O our God and Lord.

Hearken, Dear.

Troubles are often the tools by which God fashioned us for better things. God Almighty sends a man down here to be a vessel of honor, and the chiselling is always to make him something finer and better than before. —Henry Ward Beecher.

A zen is not polished without rubbing nor is a man perfected without trials. Chinese.

Ingredients of Bread

The inhabitants of cold countries make the darkest bread, of the tropics the whitest. Cornflakes are used as an ingredient in bread in America and Central America. dried fish is used in Ireland, potatoes in Ireland, chestnuts in Italy, and during lean years the bark of trees in Russia.

"I saved a life the other day."

"How was that?"

"An auto was tearing down the road."

"Well—"

"I jumped out of the road."

Nothing pleases a man with a well-developed sense of humor so much as setting two chronic bores to boring each other.

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago

Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe

Aspirin is the trade mark (registered) in Great Britain and elsewhere of Bayer. It is the only name of Bayer Company will be stamped with their special trade mark, the "Bayer Cross."

## Borden's ST. CHARLES MILK

Anywhere, in any weather, this milk keeps perfectly in the unopened can. You can safely order it by the dozen and keep a supply in the pantry. Ideal for cooking.

Write The Borden Co. Limited, Montreal, for Free Recipe Book.

### Canada's Air Mail

Flying Conditions Will be Investigated Before Contracts are Made

The experimental work in connection with the post office department's air mail program will not likely come into effect until the early fall.

It has been decided not to call for tenders for any definite air mail routes at the present time. But this summer the Royal Canadian Air Force will undertake some experimental work in the Gulf of St. Lawrence and will carry on into the winter months. The intention is to secure accurate information respecting flying conditions before any contracts are entered into with private concerns.

### Her Kidney Trouble Quickly Disappeared

New Brunswick Lady Tells of Benefits Derived from Dodd's Kidney Pills

Miss S. Moorehouse Advises All Kidney Sufferers to Use Dodd's Kidney Pills

Zesking Station, N.B. (Special).—I saw your advertisement for Dodd's Kidney Pills, states Miss S. Moorehouse, who lives at this place. "I had suffered with kidney trouble for over a year, so I decided to give your Dodd's Kidney Pills a trial. I have used several boxes and have found great relief in them. I can highly recommend Dodd's Kidney Pills and would not be without them."

The reason Dodd's Kidney Pills have come to occupy such a prominent place in the home is that so many ordinary everyday ills come from sick kidneys. Rheumatism, urinary troubles, backache and heart disease can be traced directly or indirectly to sick kidneys. To be sure, they are good, but the kidneys must be kept in good working order all the time.

Lethbridge Irrigation District

The Lethbridge Northern Irrigation District enters upon the spring with an additional 10,000 acres of land, which came under the plow last summer and fall. There has been a considerable influx of new settlers, mainly from Europe.

An Oil that is Famous. Though Canada was not the birthplace of Dr. Thomas' Electric Oil, it is the home of that famous compound. From here its good name was spread to Central and South America, the West Indies, Australia and New Zealand. That is so arid enough to attest its excellence, for in all these countries it is on sale and in demand.

Brands of cigars in England are being named after prominent ecclesiastical dignitaries. Holy Smoke!

Treat corns with Minard's Liniment.

About the best the man can do who tries to drown his sorrows is to make his head swim.

## CARRIED WIFE TO BED

Suffered So She Could Not Walk. Restored to Health by Lydia E. Pinkham's Vegetable Compound

Mining, Ontario. "I am a practical nurse and I recommend Lydia E. Pinkham's Vegetable Compound to suffering women. For three months I was almost helpless and could not sit at the table long enough to drink a cup of tea. Many a time my husband carried me to bed. I would be so weak. Then he read in the paper of a woman suffering as I did who got better after taking the Vegetable Compound, so he went and got it for me. When I had taken three bottles I was just like a new woman and have had splendid health ever since. When I feel any bearing-down pains I always take it, sometimes a half bottle or whatever I need. It is my only medicine and I have told many a woman about it. Any one wanting to know more about Lydia E. Pinkham's Vegetable Compound, I will gladly write to her. I do all I can to recommend it for I feel I owe my life and strength to it." —Mrs. NEAL, Rossburg, R. I., Mining, Ontario. Do you feel broken-down, nervous, and weak sometimes? Do you have this horrid feeling of four wheels sometimes comes to women when they are not well? Lydia E. Pinkham's Vegetable Compound is excellent to take at such a time. It always helps, and it cures regularly and persistently will relieve this condition.

## PUBLIC SALE OF LANDS

Under the Tax Recovery Act 1922

## Farmers Planting Trees

Quite a number of farmers in the Chinook district are realizing the value of trees on the farm, as was evidenced this week when a large shipment of trees arrived in town from the Dominion Forest Nurseries. Most of these trees will be planted on farms in the Coltholme and Kinnundly districts.

Mr. Main, of Rollinson, purchased a new Ford Sport Roadster car this week from the local dealers, Messrs. Cooley Bros.

## Meeting of Chinook Village Council

The regular meeting of the Council of the Village of Chinook was held in the office of the Secretary on Saturday evening, May 7.

All members were present. A letter from C. W. Rideout, re side walks on West side of Main Street, was tabled until the report of Sidewalks Committee was considered.

That the petition, requesting the passing of a By-Law enforcing the closing of business places within the Village on Wednesday afternoons, be placed on file, and the committee presenting same be advised that the purpose of the petition be attained through mutual agreement of parties interested.

It was decided to make a donation of \$5 to the Canadian Red Cross Society.

The municipal tax against Lot 3 Block 3, for 1926, was cancelled. J. L. Carter was instructed by the Council to purchase Lot 3 Block 3 from F. Deman, to be used for Village purposes. The cost of the lot not to exceed \$50, provided school taxes were paid or cancelled.

J. L. Carter was appointed a committee to look after fire hall, skating rink, renting of Village lots, and any other municipal property not supervised by the Sidewalks or Lights Committees.

A discount of 5 per cent, will be allowed on current general and business taxes if paid on or before June 15, 1927.

The appeal of W. Groat against assessment of Lot 8 Block 4, was dismissed.

A number of accounts were passed and ordered to be paid.

## Migration of American Farm Settlers

Movement of American farm settlers to Canada continues active. During November the Canadian Government Agency at Fargo, North Dakota, forwarded 143 settlers and seven cars of settlers' effects, compared with 105 settlers and four cars of effects in November 1925. For the same month the agency at Kansas City reports an increase from four settlers in 1925 to forty-six in 1926. The Detroit agency sent sixty settlers in November, an increase of two hundred per cent, over November a year ago.

The Canadian Government Department of Immigration and Colonization maintains seventeen agencies in the United States, and forecasts point to a very active spring immigration from that country.

## TO MEMBERS OF THE WHEAT POOL:

Once each year Wheat Pool members are called to choose the men they want to administer the affairs of the Pool for the coming year. To successfully direct a business of this magnitude requires that men of outstanding merit be selected. They must be chosen by the Pool members themselves. It is your job. It is both a privilege and a duty. Don't neglect it!

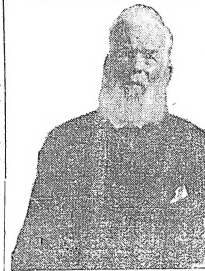

The system of electing Delegates was changed at our last Annual Meeting. Instead of sending each member a ballot card we are now required to send him a Nominating Paper. You will find this on the back page of the membership list. Full instructions for using it will be found on the inside front cover and on the back page. Note that the nomination of any member must be signed by ten members and the Nominee must sign in the place provided on the Nominating Paper. All nominations must be returned to Head Office not later than Wednesday, June 15th next.

The first thing is to see that the member you want as your Delegate is duly nominated, then get your Nominating Paper into Head Office before June 15th, then watch for your ballot paper about the first of July. When it reaches you, use it promptly, being careful to follow the instructions which will accompany it.

## Alberta Co-operative Wheat Producers Ltd.

Head Office: Louheed Building, Calgary.

## Celebrates 90th Birthday

W. VENNARD

A Chinook pioneer, who celebrated his 90th birthday on May 4. Mr. Vennard is enjoying good health and still able to work, and very ready to be on the job. He was born in the County of Armagh, Ireland, and came to Ontario with his parents when only six weeks of age. Previous to coming to Chinook in 1911, Mr. Vennard farmed for thirty years near Alcona, Michigan. Mr. and Mrs. Vennard celebrated their 57th wedding anniversary last December.

Canadian National  
Sixth Annual Tour  
To the Pacific Coast

In pursuance of a time-honored practice of affording its patrons every facility and convenience tending to ward more vacation enjoyment, the Canadian National in operating its sixth annual tour confidently believe this will again prove of the greatest aid and convenience to a host of teachers, as well as to professional men and business men and women vacationers.

The tour will commence at Winnipeg, from which point a special train of modern sleeping car equipment dining car and radio observation car will leave July 4th. The party will be personally conducted by an efficient and experienced representative of the Canadian National.

After stopping at various points of interest, the train will arrive at Prince Rupert on July 9th. At this latter point the party will embark on a palatial steamship for a cruise of 550 miles through the famous "Inside Passage" to Vancouver. While the tour terminates at Vancouver, those who desire to make a trip to Victoria may have their tickets read "Victoria" as their destination without any additional cost.

This mode of travel has many advantages. In the first place, it is planned with a view to including in the journey the most interesting points, which, with the other arrangements that are made, obviates the necessity of the passenger worrying about connections, sleeping car accommodation, meals, and entertainment en route. This is all done in advance by experts, leaving the passenger free to enjoy to the full the scenery and attractions attendant to such tours.

The local agent of the Canadian National Railways will be pleased to give you full particulars of this tour.

CANADIAN NATIONAL  
EUROPEAN TOURS

A maximum of travel through particularly interesting countries at a minimum of expense is provided in the Canadian National Educational Tours this summer through Scotland, England, France, Belgium, Switzerland and Italy.

Two tours have been arranged and sailing will be made from Montreal, July 8, on the S.S. "Andania," direct to Glasgow. Very careful attention has been given to itineraries involved.

Tour No. 1 is a 37-day trip on sea and land, visiting important cities in Scotland, England, France, Belgium, Switzerland, and Italy. All expenses, \$372.50, Montreal to Great Britain and the Continent and return to Montreal.

Tour No. 2 is a 51-day trip on sea and land, visiting in Scotland, England, France, Belgium, Switzerland and Italy. All expenses, \$501.00, Montreal to Great Britain and the Continent and return to Montreal.

There will be low excursion fares to the seaboard from points in the Prairie Provinces.

The tours will be personally conducted from Western Canada, and while overseas will be under the direct care and supervision of thoroughly responsible and reliable organizations, fully qualified in every particular to successfully look after the interests of our patrons.

The sight seeing program is very complete and generous. Motor coaches and automobiles are freely used. All sight-seeing is well planned to save unnecessary fatigue and to see the worth-while places within the time at our disposal. Competent lecturers will reveal to our patrons the outstanding features, literary, historic, artistic or scenic of the Old World centres visited.

O. B. Elliott, local agent for the Canadian National Railways, will be glad to discuss these tours and arrange all details.
